Production Discontinuation

General-Purpose AC Servo MR-J3/MR-J3W Series will be discontinued. Please see product discontinuation schedule. *Read more.*

Mitsubishi Electric Authorized Distributors & Solution Partner

I-Linear Automation
Do you want to experience an interesting way of product intro? Users can collect the latest information and discover the products features through the concept of Mini FCC. See full article.

Flexible Automation System
WHAT is the reason for downtime? WHEN is the batch of products ready? WHY is production behind the target? WHAT is the quality of the products? These are the daily questions you have as the responsible for Production, Maintenance and Quality.

As a one-stop-shop solution partner of Mitsubishi Electric, we develop, implement and support solutions that will offer you real-time information and answers to questions above. If you like to know HOW the solution: Production Performance Manager (OEE) can help you produce more efficient. See full article.

FA-Tech Robotic & Controls
Technology has become a fundamental part of our lives today and it is important to maximise the benefits while minimising its costs. In the factory automation industry, increasing emphasis has been placed on enhancement of performance and efficiency of Programmable Logic Controller (PLC) within systems in order to achieve greater cost-savings. See full article.

Product & Solution Videos

Revolutionized Social Infrastructure Solutions

Mitsubishi Electric's iQ PlantSuite provides outstanding cost performance solutions with our popular FA devices, power distribution control devices, network devices that connect these devices, and SCADA that monitors the entire system.

High Performance, Cost Efficient GT25 Wide Series

The GT25 Wide Series is a high performance and cost-effective graphical operator terminal with 7" screen and WVGA resolution or 10.1" screen and WXGA resolution. It comes with two Ethernet ports, supports a wireless option unit, and supports many of the same features and functions as the standard GT25.

Solutions to Your Packaging Needs

Mitsubishi Electric, known for its high quality and diverse range of automation products, boasts a whole range of solutions to meet your needs. Our experience covers the full range of packaging disciplines including filling, labelling and bagging applications. Our wide product range allows you to select the right solution for the task.
