Industrial Automation News In A Flash

Celebrating Four Decades of Achievement in Asia Pacific

In 1977, Melco Sales Singapore started its business in Singapore. For 40 years, we have been actively engaged in both sales and solutions business activities to improve lives in Asia.

We have been able to come this far because of all our valued partners' and customers' continuous trust and confidence in us. We would like to say a big 'thank you' to everyone who has supported us over the years.

We will continue to contribute to society and create a better future for everyone. *Watch Video.*

Product & Solution News

Monitor your worksite anytime, anywhere with GOT Mobile
Can I check the equipment status from a remote location? GOT will solve the problems. Users can now check the equipment status using a web browser with up to five information devices simultaneously accessing to a single GOT at a same time. *Read more.*

MELSEC iQ-F
FX iQ-F Spring Clamp Terminal Type
The FX5UC Spring Clamp terminal type CPU module (32 points) and I/O modules (32 points) is now available for easy-wiring. With just 48mm in width for the Spring Clamp terminal type CPU module, you can realize both space and assembly time saving in one module. *Read more.*

Anywire
Understanding how POKAYOKE terminal helps to reduce human errors
Control of human errors in picking work is an essential element for enhancement and improvement in production efficiency and product quality. Systems and devices to prevent such human-induced careless mistakes (poka) are called "POKA-YOKE", and currently some overseas production sites have

Upcoming Activities

We welcome you to visit us at the upcoming exhibition to find out more on our products.

4th INDUSTRIAL REVOLUTION ASIA SUMMIT 2017
Industrie 4.0
Tapping Into Digitisation & Integrated World

4th Industrial Revolution Asia Summit 2017
5th to 6th Sept, 2017
Hotel Istana, Kuala Lumpur, Malaysia

Past Activities

Check out the activities we have participated and how we have showcased our products and solutions for your needs.

autoMEX
24th to 27th May, 2017
Putra World Trade Centre, Kuala Lumpur, Malaysia

OGA2017
THE 15TH ASIAN OIL, GAS & PETROCHEMICAL ENGINEERING EXHIBITION
1th to 13th July, 2017
Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia

Useful Tools

adopted the Japanese-derived term, to indicate the importance of this manufacturing challenge. *Read more.*

Production Discontinuation and Transition
Notice for Production discontinuation of General-Purpose AC Servo MR-J3/MR-J3W Series. *Read more.*

The MR-J4 series is available as a replacement model for the MR-J3/MR-J3W series. This handbook explains how to upgrade the system by replacing the MR-J3 series with the MR-J4 series. *Read more.*

Release of FR-A800-ELV Inverter for Elevator Applications
A new line up of dedicated inverters for specialized fields is born! The optimum functions for each dedicated field are added to the already high performance and high functionality FR-A800 series inverter. *Read more.*

Mitsubishi Electric News

Mitsubishi Electric Introduces New FA-IT Open Platform

New FA-IT Open Platform is introduced for factory automation based on edge computing. The platform facilitates connectivity between factory shop floors and value chains via Internet of things (IoT) systems to enable the rapid collection, analysis and utilization of data for smart manufacturing. *Read more.*

Mitsubishi Electric Contributes e-F@ctory Demonstration Zone in Changshu Innovation Center for Green & Intelligent Manufacturing

The recently completed e-F@ctory demonstration zone within the Changshu Innovation Center for Green & Intelligent Manufacturing, aimed at promoting intelligent manufacturing in China. The center will support manufacturing and R&D, as well as the development of human resources, in cooperation with companies, universities and research institutes. *Read more.*

Mitsubishi Electric Develops Smart-learning Algorithm for Extra-efficient AI

With the extra-efficient artificial-intelligence (AI) machine control, it is expected to enable smart equipment such as industrial robots and vehicles to use sensors and cameras to rapidly learn about their environments for finely tuned AI-based control in unique environments. *Read more.*

Industry News

Proton's Tanjung Malim factory to pioneer Industry 4.0

Malaysia's national carmaker Proton Holdings Sdn Bhd is set to be the principal and pioneer automotive factory in the country to implement the new manufacturing technology under the Fourth Industrial Revolution (Industry 4.0). *Read More.*

Product & Solution Videos

Digitalization has enabled unprecedented levels of communication between machines, products and people. e-F@ctory is a solution for manufacturing that is one step ahead of the industry by integrating the best combination of manufacturing processes with real-time data, moving autonomously to improve efficiency and providing reliable support to manual work processes.

CC-Link IE Field
CC-Link IE is the optimal network choice for complete manufacturing control up to the business information system level. It is vertically integrated and Ethernet-based network from IT layer to field layer, providing ultra-high speed & large capacity network with real-time performance.

One-Stop Application for Converting
Diverse manufacturing needs can be met with Mitsubishi Electric Factory Automation products, your one stop solution provider.
