

# Air Circuit Breaker Maintenance Services

## FAQs

### Who will carry out the ACB servicing job?

Only **authorized personnel** who have undergone our vigorous ACB training programs in Japan's Fukuyama's Factory/Mitsubishi Electric Asia Pte Ltd are allowed to conduct the servicing job.

### When should servicing be done?

1. Annual servicing is recommended.
2. After a severe fault has been cleared by the ACB.
3. Upon customer request.\*

---

\* Minimum notice of 2-3 days is needed for servicing. Servicing can be conducted after office hours, weekends or public holidays.

### Benefits on maintenance of ACB

1. Ensures that the ACB always perform at optimum level.
2. Reduces risk of equipment breakdown which may result in large monetary losses due to production downtime or productivity loss.
3. Prevents accidents arising from lack of maintenance.

AE-SW SERIES

## Why engage **Mitsubishi Electric Asia Pte Ltd** to carry out the ACB servicing job?

1. We are the manufacturer. We know our ACB better than any other service providers.
2. We provide free warranty period after servicing is carried out to further enhance customer satisfaction.
3. We will provide manufacturer's discount for purchase of new ACB or replaceable parts if faulty parts are discovered during servicing.
